All investors owe Les and the committee a big vote of thanks. They put themselves on the line for a good cause in a mostly thankless task.

THANK YOU.

The limitation on board member terms is a BIG victory. The "resignation" of Parker was a BIG victory. The reality check for LUB bod and top management is a BIG victory.

And for Daviss to suggest that ANY of LUB problems originated by postings on this board is so incredibly stupid as to be terribly embarrassing for any person worthy of the title of Chairman.

The genesis of LUB problems rests exclusively in LUB top management bod "watch each other's back, good old boy" culture AND outrageous neglect of the CUSTOMERS.

Thanks to Les and group, there IS hope.
